Cobblestone Historic “Stone” Floor Not To Be Forgotten

If you've been following the trials and tribulations of both the amphitheatre and Cobblestone construction woes over these past two years, you know that we had to gut the audience area of the Cobblestone Theatre to rebuild the terraced seating area to install the new-to-us chairs donated to us in 2019. This beautiful stone floor was uncovered during demolition and due to building codes, it also had to be removed.

But there is history here. And the stones were so interesting—some appeared to be marble, others stone and yet others cement with paint drippings to add to their character!

What to do . . . What to do . . . See Page 2 for our exciting reveal!!

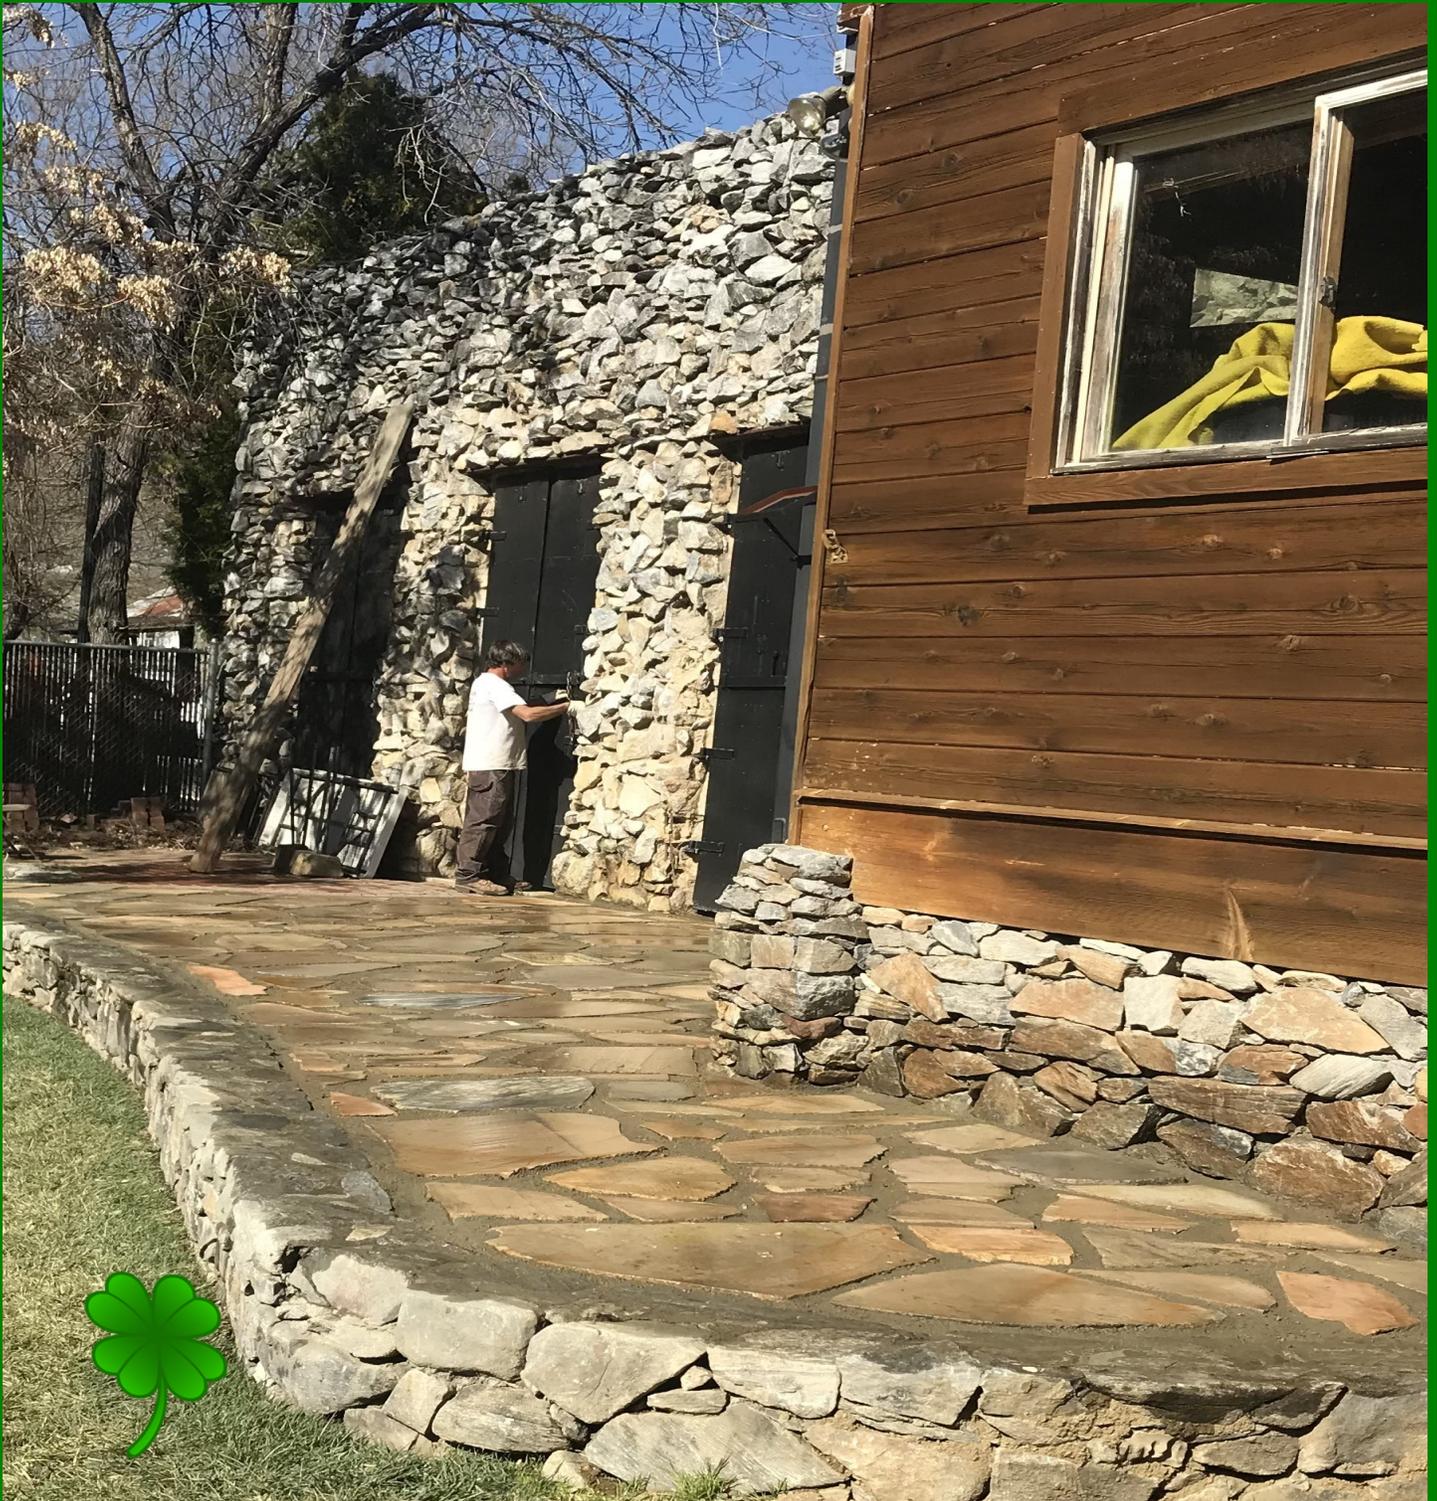

TA-DA!!

Welcome to the Amphitheatre, you beautiful stones!!

Now, instead of decomposed granite, the top level of the amphitheatre is now beautiful, historic stone!

Many thanks to Michael Bowers of Bowers Landscaping and to a few private donors who made this project possible!

BALANCING THE BOOKS CAN BE A CHALLENGE!

. . . and never more so than during this time of Covid when the theatre has been dark for more than a year and with no source of income, except those kind and generous donations made by our community of theatre lovers. Venue maintenance, taxes, utilities and insurance must be paid, whether we have an audience or not.

Any amount of financial support will be greatly appreciated, and of course, is tax-deductible. Thank you for supporting YOUR Community Theatre!
